

OrganoTex®

BioCare Wool & Down Wash

- 🌿 **Mild fine detergent for sensitive materials such as wool and down**
- 🌿 **Contains lanolin, the natural wool grease**
- 🌿 **Readily biodegradable and highly biobased**

500 ml: Article No. 102687
5L refill: Article No. 102741

BioCare Wool & Down Wash is a delicate, biobased detergent for wool and down. It contains lanolin, the natural wool fat, which restores the natural properties of wool and down. It also contains lemon eucalyptus oil which has an antibacterial function and gives a light, fresh scent. Down garments or down sleeping bags in nylon/ripstop, which are made of shinier materials, are not damaged and retain their shine. When water no longer beads off a down jacket, the garment can be retreated with OrganoTex Spray-On or Wash-In Waterproofing to improve water repellency.

Applications

Suitable for wool and down, as well as merino wool, mohair, silk, cashmere and similar sensitive materials.

Sustainability

The product is readily biodegradable, highly concentrated, highly biobased and PFAS-free.

Contents

15–30% soap, 5–15% non-ionic surfactants, 1–5% anionic surfactants, <1% lanolin (wool grease), preservatives (2-phenoxyethanol), perfume (lemon eucalyptus essential oil).

How to use

Instructional video: see organotex.com

- 1) Shake the bottle. Make sure the detergent compartment is completely clean.
- 2) Add 25 ml (for soft water) or 40 ml (for hard water) to the detergent compartment for approximately 2–4 kg. Do not use fabric softener.
- 3) Wash and dry according to care instructions.

For hand washing: Add about 20 ml for 10 litres of water. Immerse and allow to soak for a while. Then rinse thoroughly. Gently squeeze out the water without twisting the garment. Also works in cold water.

Safety

For safety instructions, see packaging.

Other information

Coverage: Serves for about 20 washes. Shelf life: 24 months, opened packaging. Storage: Frost-free, out of reach of children. Recycling: Sorted as plastic (rPET bottle).

Made Green Inside by OrganoClick®. OrganoTex® is developed and manufactured in Sweden by OrganoClick AB, according to ISO 14001 and ISO 9001. OrganoClick is a Swedish greentech company that with green chemistry imitate nature's solutions and creates products and materials of the future, based on biodegradable and fossil-free raw materials. For its green innovations, OrganoClick has won a number of awards.
