

OrganoTex®

ShoeCare Leather Wax

- 🌿 **Biobased neutral-colour leather wax**
- 🌿 **Creates water repellency and protects the leather**
- 🌿 **PFAS-free and free of palm oil and paraffin**
- 🌿 **Eco-labelled with USDA Certified Biobased Product 100%**

100 ml: Article No. 103106

ShoeCare Leather Wax is an effective, multifunctional water-repellent wax that moisturizes, protects, and polishes leather. It maintains the material's breathability and extends its useful life. The wax nourishes the leather, but does not leave boot shafts or riding boots too soft. Eco-labelled with USDA Certified Biobased Product.

Applications

Suitable for all types of leather (not just shoes), such as leather bags, furniture, belts, etc. Also suitable for shoes with membranes. Remember that a matt leather like nubuck etc. will get more of a sheen if you wax it.

Sustainability

The product is 100% biobased and free of palm oil and paraffin. OrganoTex's innovative products are inspired by nature's own chemistry.

Contents

Plant waxes, vegetable extracts, beeswax, and argan extract.

How to use

Instructional video: see organotex.com

- 1) Clean the leather with a damp cloth or brush.
- 2) Distribute the wax evenly with your fingers or a cloth.
- 3) Wait a few minutes and then polish lightly with a cloth.

Other information

Shelf life: 24 months, opened packaging. Storage: Frost-free, out of reach of children. Recycling: Metal.

Made Green Inside by OrganoClick®. OrganoTex® is developed and manufactured in Sweden by OrganoClick AB, according to ISO 14001 and ISO 9001. OrganoClick is a Swedish greentech company that with green chemistry imitate nature's solutions and creates products and materials of the future, based on biodegradable and fossil-free raw materials. For its green innovations, OrganoClick has won a number of awards.
